Overview

Creative and results-driven full-stack software developer with a strong focus on crafting intuitive user experiences and delivering efficient, high-quality solutions. Proficient in API integrations, web design, and database management, with proven success in leading complex projects, including the complete redesign of a client-facing application at a leading licensing firm. An excellent communicator and collaborative team member, dedicated to continuous learning and professional growth.

Technology

Programming Languages: C#, JS, JQuery

Frameworks & Libraries: ASP.NET Core, Entity, Bootstrap, TypeScript, React

Databases: Microsoft SQL Server

Version Control: GitHub CI/CD, Sourcetree

Methodologies: SOLID, MVC, OOP

Extras: Canva, Spline 3D

Sample Projects

Bug Tracker: An MVC application built with Entity Framework for project tracking.

Blog: A personal blog platform featuring role based access control and a REST API.

Work Experience

Full Stack Developer at Cornerstone Licensing in Roswell GA (02/2024-Present)

► Redesigned and implemented a functional client portal that increased average monthly user participation by 75%.

► Led a SaaS checklist project that digitized multiple offline processes, including project submission, tracking, and communication, previously handled via phone or email.

► Optimized in-app workflows for specialists, improving efficiency and enabling faster scaling and training for the internal team.

English Teacher at Amplify Ed. (2020–2023)
Analyzed data to create and deliver engaging, targeted lessons for students of all levels. Provided encouragement and feedback.

Naturalist at Chattahoochee Center (2023)
Prepared lessons, delivered lectures, and maintained group cohesion and safety.
